

# 6'H x 5'W x 10'D WELDED WIRE KENNEL INSTRUCTION MANUAL

MSP-194

## TIPS BEFORE YOU START!

---

1. Ensure that all parts are present prior to assembly.
2. Check all packing material carefully before discarding, as some parts may be encased in the packing material.
3. For ease and speed of assembly, it is recommended that prior to each step all required parts are identified.
4. Ensure that you have sufficient space and people to assemble product safely.
5. During assembly take care not to over-tighten any fittings, as this may damage the product.
6. Please keep this instruction manual for future reference.

## PARTS LIST

---

**A** 5 x Standard Panel.

**B** 1 x Door Panel (pre-attached latch).

**C** 12 sets x clamp with bolt, washer and nut (attached to panel for shipping).

Tools: Ratchet and 17mm size  
socket / wrench (not included).

## ASSEMBLY INSTRUCTIONS

**Note:** It is recommended that the kennel be set up on a level area, this will allow the unit and any accessories to work best.

**Note:** Your new dog kennel has been designed to be modular and can be set up in many configurations, figure 1 shows one of the many configurations possible. The door panel and accessory panel can be placed in any location, and can be rotated 180 degrees (left to right) to allow the opening to be on the left or right of the panel.

**Note:** The panels must be configured as shown in figure 2.

**Note:** Be sure to position the front and back panels in the orientation shown in fig. 1. The front and back panels should be positioned to the inside of the side panels.
